

1 38. A method according to claim 36, wherein said method
2 further comprises the steps of:
3 monitoring said active call for fraud detection
4 events;
5 storing said buffer contents in said mass storage
6 device if said monitoring returns a positive
7 result; and
8 recording the remainder of said active call in
9 said mass storage device if said monitoring
10 returns a positive result. 64
